FARGO JOINS NATIONAL HEALTH CARE DISCUSSION

Citizens' recommendations to be considered by Congress, White House

Washington, D.C. – The Citizens' Health Care Working Group will host a community dialogue on health care in America in Fargo, ND, on **Saturday, April 22nd**, from 10:00 a.m. to 2:30 p.m. Holiday Inn of Fargo, 3803 13th Ave. South (at I-29), Fargo, ND 58103. This event is free and open to the public, but registration is requested. Registration is available online at www.citizenshealthcare.gov. Onsite registration is also available.

"This meeting provides every day people with an opportunity to speak out about health care," offered Deb Stehr, of Lake View, Iowa, is a health care advocate and is a full-time care giver for her adult son Jonathan, who has cerebral palsy. "I look forward to hearing from the people of Fargo as they help us find solutions."

The community meetings feature a multimedia presentation that provides information on the nation's health care system followed by moderated discussion of what health care services should be provided, how they should be delivered and financed, and trade-offs Americans are willing to make to improve the system. In addition, community members are encouraged to share their opinions and views by using the Public Comment Center, Citizens' Blog and Discussion Forums at www.citizenshealthcare.gov.

This community meeting is one of three dozen taking place throughout the nation. At the conclusion of the community meetings, the Working Group will develop recommendations which the President will review and on which five Congressional Committees will hold hearings.

The Working Group, a nonpartisan group authorized by the Medicare Prescription Drug, Improvement and Modernization Act of 2003, is charged with listening to the views of the American people and developing recommendations for the President and Congress to provide U.S. citizens with "Health Care that Works for All Americans." The *Health Report to the American People*, was released in October and serves as a basis to engage the American people in a dialogue on health care access, cost and quality issues. The Working Group consists of 15 members --14 citizens of diverse backgrounds from across the country, and the Secretary of Health and Human Services.
